

Planning Canada: A Case Study Approach

Cross-Sectional Guide for Cases

This book is subdivided into nine sections, including an introduction to planning history and theory. But many of the case studies involve multiple areas of planning. This guide is intended to help you understand the cross-sectional trends in the case studies, so that if you're looking for more cases in your area of interest, you can find them.

Section Case Study #	1.0 History & Theory	2.0 Community Development & Social Planning	3.0 Urban Form & Public Health	4.0 Natural Resource Management	5.0 Housing	6.0 Participatory Processes	7.0 Urban Design	8.0 Urban Redevelopment	9.0 Transportation & Infrastructure
